MOUNT HOPE · FAYETTE CO., WV

ACCOUNTABLE SOURCE

TRUSTED LOCAL INFORMATION

Built on trust. Grounded in what's real.

When customers ask search engines, maps, social platforms, or AI tools about your business, they may receive incomplete, outdated, or incorrect answers. KTS helps you maintain an accountable source of truth: clear, current, business-approved information about your location, hours, services, directions, access, events, and contact details.

THE KTS PROMISE

We do not manufacture attention or generate unverified claims. We help you make **the information your business stands behind** easier to find, understand, and maintain.

THE KTS TRUST PATH

01

VERIFY

Verified Local Presence

STARTING AT  **\$500**

Review, organize, and correct the core business information customers use to decide whether they can trust and reach you.

- Business-approved contact, hours, services, and location details
- Identify outdated, conflicting, or confusing information
- Prepare verified information for included customer-controlled platforms
- Practical next steps for staying current

 Typical timeline 3–5 business days

02

PUBLISH

Trusted Information Hub

STARTING  **\$1,500**
AT

Give customers one clear, mobile-friendly, business-approved source for directions, parking, pickup, services, events, or contact details.

- “Find Us,” service-area, event, pickup, or customer-information page
- QR-linked hub pointing to an accountable source
- Directions, links, hours, and customer instructions
- Business review, approval, launch support, and handoff

 Typical timeline 5–10 business days

03

GUIDE

Local Access Map

STARTING  **\$2,500**
AT

Give customers a clear, usable guide to your business, venue, event, pickup point, delivery area, or service area.

- Customer-facing location or service-area map
- Parking, entrance, pickup, accessibility, or access details
- Optional QR link or web placement when included in scope
- Business-approved map content and handoff materials

 Typical timeline 10–15 business days

ONGOING LOCAL INFORMATION CARE

ONGOING CARE · AFTER THE TRUST PATH

KEEP CURRENT

Ongoing Local Information Care

The Trust Path establishes your accountable source; Keep Current maintains it. Periodic review of your business-approved facts, hours, access details, event information, QR destinations, and map information — so your business-approved source stays current as things change.

Facts

Hours

Access details

Events

Maps

✦ Priced to scope

DEFINED BEFORE ANY QUOTE:

- Review frequency
- Locations & platforms covered
- Customer approval process
- What's excluded

01

SCHEDULED REVIEW

On the agreed cadence, KTS re-checks your information against what's true now.

02

YOU APPROVE CHANGES

Nothing goes public without your sign-off. You stay the accountable source.

03

PUBLISHED & LOGGED

Approved updates go live, with a record of what changed and when.

OPTIONAL TRUST MARKER

A business-approved “Last reviewed” date on the information hub or other customer-facing materials, when appropriate — a simple, honest signal that the information was recently checked.

🕒 LAST REVIEWED

MM / YYYY

A good fit when information changes: seasonal or holiday hours, recurring events, new services, a move or renovation, or updated pickup, parking, and access details.

KTS updates only the locations, platforms, content, and review cadence named in the written care-plan scope. Third-party display, indexing, ranking, and AI-generated summaries remain outside KTS control.

A CLEAR, ACCOUNTABLE PROCESS

01

TELL US

What are customers getting wrong, missing, or asking about?

02

VERIFY

KTS organizes the relevant information and confirms what the business approves for public use.

03

APPROVE

Receive written scope, price, timeline, terms, and required deposit.

04

LAUNCH

Review completed public information and receive handoff materials.

SIMPLE PAYMENT TERMS

For most projects over \$1,000, KTS requires a 50% deposit before work begins and the remaining 50% before launch or handoff. Small projects may require full payment in advance.

Any work outside the approved written scope requires approval before additional charges apply.

50%

Deposit to begin

50%

Before handoff

WHAT KTS HELPS WITH

- + Clearer, business-approved information
- + Directions & service-area details
- + QR-linked information hubs
- + Customer-access pages
- + Maps

WHAT KTS DOES NOT PROMISE

- A particular Google ranking
- Verification or customer-traffic level
- Sales or advertising results
- AI-search results
- Any outcome controlled by a third party

START WITH WHAT CUSTOMERS NEED TO KNOW

What should a customer be able to confirm before they arrive, call, book, buy, or attend? Tell KTS what may be wrong, missing, unclear, or changing. We'll recommend the smallest useful scope.
